

TRANSFORM FORTH VALLEY

Compassion • Inclusion • Respect • Partnership

Transform Forth Valley is dedicated to empowering individuals and families to live a more fulfilled life.

We work with partners to actively challenge inequalities and to achieve sustainable change.

Tackling Inequalities & Improving Outcomes Project (TIOP)

Who are we?

TIOP is part of the Social Inclusion Project, working in partnership to support individuals who are currently involved with Falkirk Council Justice Service.

Tackling Inequalities & Improving Outcomes Project (TIIO P)

What do we do?

The TIIO Project works with individuals aged 16+ years who reside within the Falkirk Council Area who are:

- on a current statutory order with Falkirk Justice Service such as a Community Payback Order or a Structured Deferred Sentence
- subject to post-release supervision licences such as parole or a non-parole licence
- or, referred via the CJS Diversion from Prosecution scheme

Engagement with TIIO P is voluntary.

TIIO P provides intensive support, based on a whole person response. Wide ranging assistance is provided with the aim of addressing not only the effect, but also the cause of the challenges being experienced.

How we do it?

TIIO P works closely with clients to identify the changes important to them and establish a tailored support plan. We collaborate with a wide range of agencies to help an individual to address these needs, and ensure they are delivered in a coordinated and seamless way. We seek to break cycles of offending, remove barriers to care and tackle inequalities whether they be societal, economic or in relation to health.

Aim & objectives

We aim to establish a stable foundation from which a person can make positive change. We will achieve this through:

- Optimising levels of physical health and emotional well-being
- Reducing offending and involvement with the CJS
- Promoting social inclusion and reduce associated stigma
- Engaging in treatment services for substance misuse or mental health concerns
- Supporting personal recovery
- Access to financial support
- Improving self-management skills
- Supporting independence and self determination
- Improving social skills and social connectedness
- Promoting community safety and the risk of crime

How can you access us?

This is a professional only referral service for individuals on a Justice Order.
